

Intro to Programmatic Buying

Gregory Pichot
Director, Account Management
AppNexus

26 July 2018

is the world's
largest
independent
advertising
technology
company

AppNexus powers the advertising that powers the internet

Adserver and
monetization platform
for Publishers

Marketplace connecting
buyers and sellers

Outcomes-based
buying platform for
marketers and agencies

But wait, what is programmatic advertising?

The use of **automation** in the **buying and selling** of digital media

EFFICIENCY

DATA

DIFFERENTIATION

Next year,
67.5%
of all global
digital spend
will be
programmatic

*Global programmatic ad spend
as a % of digital display ad spend (USD, billions)*

Source: Zenith, "Programmatic Marketing Forecasts, 2017," November 20, 2017

Next year,
1 in 4
digital dollars
in Malaysia
will be
programmatic

*Malaysia programmatic ad spend
as a % of digital display ad spend (USD, millions)*

Programmatic allows a new approach to digital marketing

Traditional Digital

Buying Media

Media Planning

- *in bulk*
- *same price for each impression*

A/B testing Creative

Targeting domains only

Programmatic

Buying Audiences

Media Trading

- *impression basis*
- *bid can differ for each impression*

**Dynamic Creative
Optimisation (DCO)**

Contextual targeting

Why has programmatic grown so quickly?

Scale of inventory

Numerous premium inventory pools

Ease of access

More access to more users, at all points in time

Audience targeting

Deeper insights into target audiences

Greater precision

Multiple audience segments

Increased efficiency

Less time managing campaigns

Fewer vendor emails, invoices

Global frequency control

Four elements to consider when starting your programmatic buying journey

**KPI
goals**

**Data
strategy**

**Inventory
strategy**

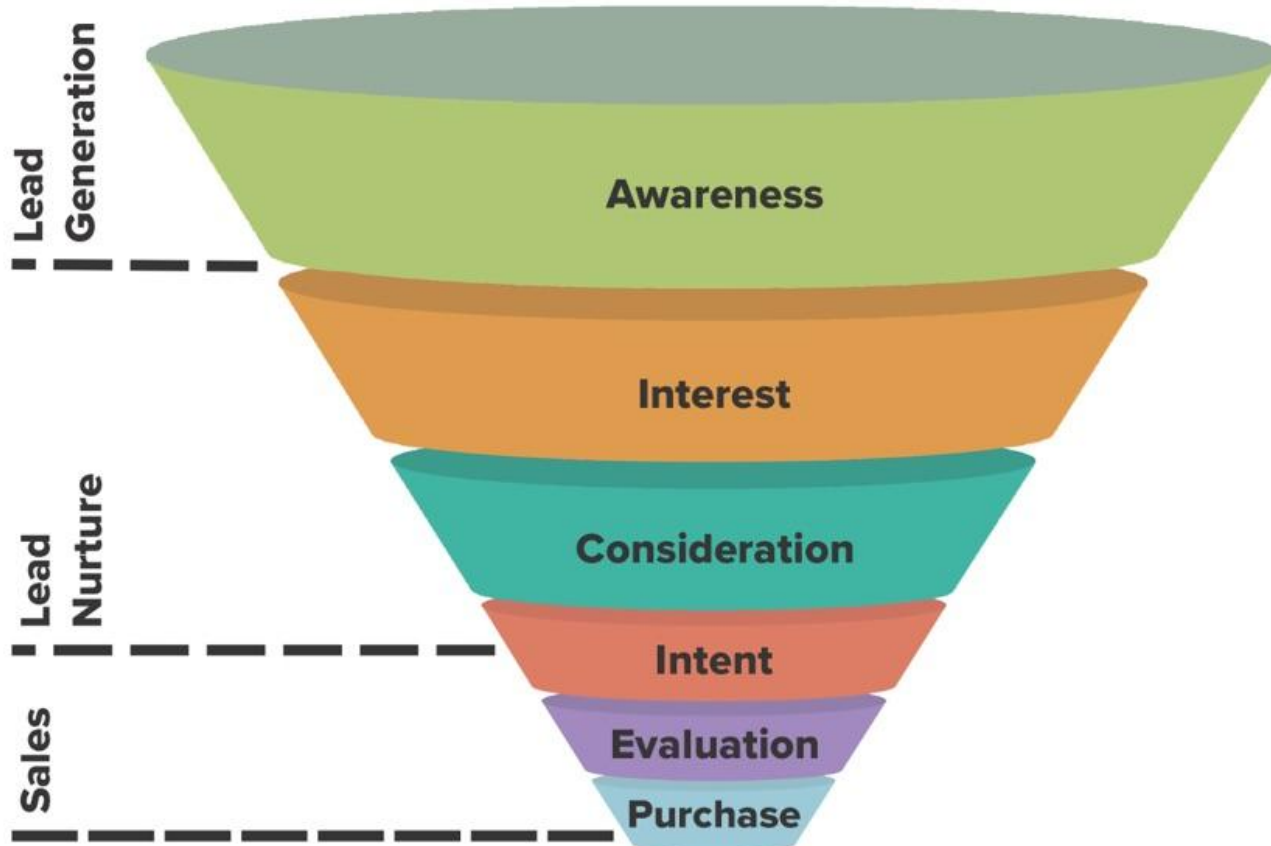

**Measurement
attribution**

Understanding the campaign – Branding vs Performance

The Marketing Funnel

Understand where you stand in the marketing funnel

Branding or Performance?

KPI and goals

Branding

Reach and Frequency

**Click Through Rate /
Cost per Click**

Viewability

Performance

**Cost per Acquisition
Cost per Lead
Cost per Download / Install
Cost per Action**

Think carefully about your data strategy

1st vs. 2nd vs. 3rd Party Data

There are many different ways to leverage data

Demographic

Transaction

Behavioural

Contextual

There are multiple ways to access inventory

Open Market

Private Marketplace

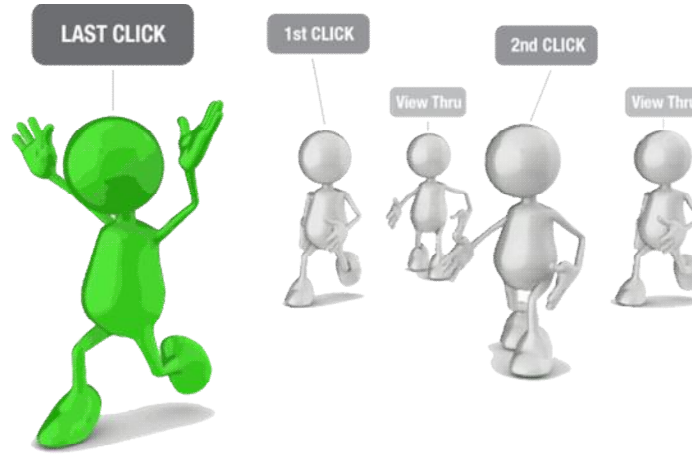

Brand Safety

Once you know your KPIs, think about how to measure them

Return on Ad Spend

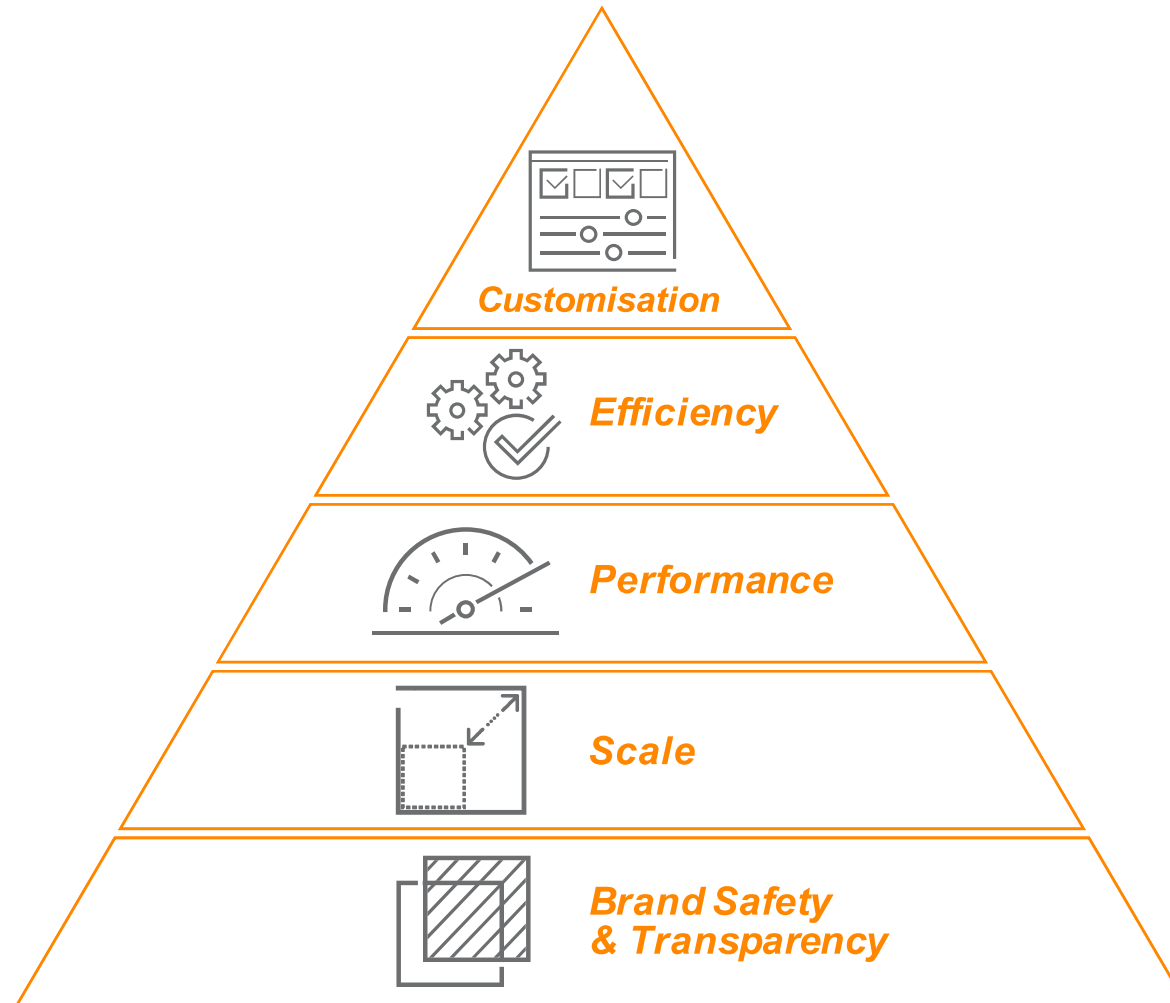

Attribution

Viewability

The pyramid of needs using a programmatic platform

Thank you
